EDUCATION

University of Alberta

Edmonton, Alberta

Diploma in Full Stack Web Development

Expected Completion, Sep 2026

- **Concentrations:** Full Stack Web Development
- **Related Coursework:** React, Next.js (including Server-Side Rendering), JavaScript, TypeScript, C#/Python, .NET/Django, REST APIs, Git, MySQL, Database Design & ER Diagrams, SWR, UI Design with Tailwind CSS & ShadCN, MUI, Version Control & Team Collaboration, Accessibility (AODA), , Object-Oriented Programming.

PROJECTS

[Fitcheck](#) [Live Demo](#) [Github](#)

Creator & Developer · Solo Project

May 2025– June 2025

- AI-Powered GitHub Reviewer – Full-stack app using Next.js, TypeScript, GPT-4o, Tailwind, SWR, ShadCN and Vercel AI SDK to analyze GitHub repos and generate persona-based reviews.
- Architected 3 optimized API routes to classify tech stacks, fetch raw repo code, and stream AI-generated markdown reviews in real-time.
- Created recursive async function to fetch tech files from GitHub repos, filtered by extensions and ignore rules.
- Secured AI endpoints with IP-based rate limiting to prevent abuse and ensure fair usage.
- Built and tested custom React hooks with Jest for modular, reliable data fetching.
- Leveraged SWR for fast, cache-first content delivery with seamless UI updates.
- Designed a responsive, accessible interface with Tailwind CSS, ShadCN components, emphasizing performance and UX.

[PokeXplorer](#) [Live Demo](#) [Github](#)

Creator & Developer · Solo Project

March 2025

- Created an interactive Pokémon search app using vanilla JavaScript, HTML, and CSS, powered by the PokéAPI.
- Designed a card-based interface with type-colored backgrounds, animated stat displays and evolution chain rendering.
- Integrated audio feedback on sprite interaction and custom error messages for invalid searches.
- Delivered a responsive, mobile-first UI focused on clean user experience without using any frameworks.

EXPERIENCE

Freelance Web Developer

Remote

Self-employed · (During High School)

Oct 2022 – Nov 2022

- Delivered end-to-end web solutions for two small businesses in the construction and music production industries, simulating a client-facing startup environment.
- Designed and developed responsive, mobile-first UIs using HTML, CSS, and JavaScript, prioritizing performance and UX.
- Scoped client requirements, implemented features, handled deployment and hosting practicing async communication and iterative design feedback.
- Applied SEO fundamentals and optimized loading speed for better discoverability and UX.
- Gained early experience in independent planning, problem-solving, and real-world project delivery.

CERTIFICATIONS

- **Harvard CS50 – Introduction to Computer Science** Feb 2025 – Expected Dec 2025
Currently completing core coursework in computer science, programming, and web development.
- **FreecodeCamp — Responsive Web Design** June 2024– July 2024
Built responsive websites using HTML, CSS, and Flexbox/Grid.
- **FreecodeCamp — JavaScript Algorithms and Data Structures.** Aug 2024– Sept 2024
Practiced core JavaScript concepts, algorithms, and data structures.

SKILLS

Languages: C, JavaScript, TypeScript, Python, HTML, CSS, MySQL

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap

UI/UX Components & Animation: ShadCN/UI, Radix UI, MUI, Framer Motion, GSAP

Tools, Technologies & AI Development: Git, GitHub, Vercel (AI SDK), RESTful APIs, OpenAI API (GPT-4o), Prompt Engineering, Streaming LLM Responses, Figma Testing & Optimization: Jest (React Hooks), Storybook, Lighthouse, DevTools, Responsive & Accessibility Testing **Other**

Technical Skills: Version Control & Team Collaboration (Git workflow), Component-Driven Development, SEO, Real-Time Data Handling (Streaming API)
