EDUCATION

University of Alberta

Diploma in Full Stack Web Development

Edmonton, Alberta

Expected Completion, Sep 2026

- **Concentrations:** Full Stack Web Development
- **Related Coursework:** React, Next.js, TypeScript, C#/Python, .NET/Django, REST APIs, Git, MySQL, Database Design & ER Diagrams, SWR, UI Design with Tailwind CSS & ShadCN, Version Control & Team Collaboration, Object-Oriented Programming

EXPERIENCE

Freelance Web Developer

Remote

Self-employed · (During High School)

Oct 2022 – Nov 2022

- Built and deployed two responsive websites for small businesses in the construction and music production industries
- Designed clean, modern UIs using HTML, CSS, and JavaScript with a mobile-first approach
- Delivered complete solutions independently: scoped client requirements, developed features, handled hosting, and refined design based on feedback
- Implemented SEO basics and ensured fast load times to improve user experience

PROJECTS

[Fitcheck](#) [Live Demo](#) [Github](#)

Creator & Developer · Solo Project

May 2025– June 2025

- AI-Powered GitHub Reviewer – Full-stack app using Next.js, GPT-4o, Tailwind, SWR, ShadCN and Vercel AI SDK to analyze GitHub repos and generate persona-based reviews.
- Architected 3 optimized API routes to classify tech stacks, fetch raw repo code, and stream AI-generated markdown reviews in real-time
- Secured AI endpoints with IP-based rate limiting to prevent abuse and ensure fair usage
- Built and tested custom React hooks with Jest for modular, reliable data fetching
- Leveraged SWR for fast, cache-first content delivery with seamless UI updates
- Designed a responsive, accessible interface with Tailwind CSS and ShadCN components, emphasizing performance and UX

[PokeXplorer](#) [Live Demo](#) [Github](#)

Creator & Developer · Solo Project

March 2025

- Created an interactive Pokémon search app using vanilla JavaScript, HTML, and CSS, powered by the PokéAPI
- Designed a card-based interface with type-colored backgrounds, animated stat displays, and evolution chain rendering
- Integrated audio feedback on sprite interaction and custom error messages for invalid searches
- Delivered a responsive, mobile-first UI focused on clean user experience without using any frameworks

CERTIFICATIONS

- **Harvard CS50** – Introduction to Computer Science Feb 2025 – Expected Dec 2025
Currently completing core coursework in computer science, programming, and web development.
- **FreecodeCamp** — Responsive Web Design June 2024– July 2024
Built responsive websites using HTML, CSS, and Flexbox/Grid.
- **FreecodeCamp** — JavaScript Algorithms and Data Structures Aug 2024– Sept 2024
Practiced core JavaScript concepts, algorithms, and data structures.

SKILLS

Languages: JavaScript, TypeScript, Python, C, HTML, CSS, MySQL

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

UI/UX Components & Animation: ShadCN/UI, Radix UI, MUI, Framer Motion, GSAP

Tools & Technologies: Git, GitHub, Storybook (UI Testing), Vercel (including Vercel AI SDK), RESTful APIs, Figma
